Striving for Sustainable Impact

Sustainability Report 2020
In an unprecedented year for our company, society, and people worldwide, Savola persevered in our commitment to sustainability and continued to have a positive impact across our operations and geographic footprint. What follows is our seventh Sustainability Report, which covers the sustainability strategy, approach, activities, performance, and achievements of our operating companies across the Kingdom of Saudi Arabia, including Panda Retail Company, Afia International Company, United Sugar Company, International Food Industries (IFI) and Savola Group Headquarters (HQ).

The report covers the period between 1 January and 31 December 2020.

A detailed overview of the scope of this report and coverage can be found on page 78.

Savola Group is one of the leading strategic investment holdings group's in the food and retail sectors, committed to creating exceptional and lasting value for our stakeholders through our secure, reliable, and transparent operations. In 2020, we continued to support our employees, customers, supply chains, investors, community and environment through our core business and diverse sustainability and CSR programs throughout our geographic footprint.

Our Vision
At Savola, we exist to empower, inspire, and strategically guide our companies, partners, customers, and employees through supportive programs and core values.

Our Mission
We add value to investors, employees, and the wider society
We are a business run for people, by people. This is why Savola’s mission is to have a positive impact on society while generating profits and growth through strategic investment in the MENA (Middle East and North Africa) region. We are uniquely equipped for this role because of our sector-specific expertise, strong track record, and excellent market positioning.

In the immediate future, we will increase our focus on our core sectors (food and retail) by gradually selling investments in other industries. These funds will then be used to tap into new markets and enter higher-value product categories. For example, we acquired a majority stake in Al Kabeer (51%), one of the region’s leading frozen foods companies.

At an operational level, our goal is to gradually move toward a new model where our companies and brands have greater autonomy. We will do this by proactively providing strategic guidance and thought leadership to our companies enabling them to grow and succeed. This way, they will be able to concentrate on strengthening product marketing and branding to increase consumer loyalty in each country.

We act in accordance with our values
At Savola, ethical principles: integrity, righteousness, fulfillment, and persistence – shape the way we do business. They always have and they always will. That is why we were honored to be ranked fourth in governance and transparency in the MENA region as per Standard & Poor’s, Dow Jones, and Hawkamah Institute Index.
Savola is committed to improving the lives of the people and communities we serve.

As a responsible corporate citizen, Savola’s goal is to deliver positive impacts on the lives of our people, the communities we serve and the environment we share. This represents a key foundation of our values and governance, which guides our decision-making processes and characterizes all aspects of our operations. Savola maintains the highest standards of safety, governance, environmental and ethical conduct across our value chain, creating value for our business, our communities, and the Kingdom as a whole.

A Leader in Food and Retail

With an extensive portfolio of popular food and retail brands, Savola is one of the leading strategic investment holding companies in the Middle East and North Africa (MENA) region.

Savola maintains a portfolio of well-known brands across the MENA, producing consumer packaged goods in more than eight countries for export to 50+ markets around the globe, many of which are leading brands in their respective categories.

From this steadfast foundation, we continue to diversify into higher-value categories in these markets, driven by our commitment to continuous innovation and strategic growth, rewarding our shareholders with consistent returns.

Today, Savola is the largest shareholder (34.52%) in the MENA region’s leading food manufacturer and distributor, Almarai Company, and owns a majority stake in Al Kabeer Group of Companies (51%), another leading player in the regional market.

Savola focuses on delivering “Value Built on Values” through our diverse and expanding portfolio of investments in the Kingdom’s leading food and retail companies, rewarding investors around the world with our strong financial performance, specialist market knowledge and evident commitment to sustainability.

Food Investments

Savola maintains a portfolio of well-known brands across the MENA, producing consumer packaged goods in more than eight countries for export to 50+ markets around the globe, many of which are leading brands in their respective categories.

From this steadfast foundation, we continue to diversify into higher-value categories in these markets, driven by our commitment to continuous innovation and strategic growth, rewarding our shareholders with consistent returns.

Today, Savola is the largest shareholder (34.52%) in the MENA region’s leading food manufacturer and distributor, Almarai Company, and owns a majority stake in Al Kabeer Group of Companies (51%), another leading player in the regional market.

Savola’s retail portfolio is led by Panda Retail, the largest modern grocery chain in Saudi Arabia. With a total of 205 stores (including four in Egypt), Panda enjoys a significant market share with a formidable geographic reach, serving more than 100 million customers each year.

Our portfolio also includes Herfy Food Services Company, one of the Kingdom’s leading fast food restaurant, industrial bakery, and meat processing businesses, of which Savola is the largest shareholder (49%).

Savola at a Glance

The Savola Group Sustainability Report 2020
2020 Sustainability Highlights

Sustainability is part of who we are and defines how we conduct business. We are proud of the considerable progress we have made in the areas we recognized in our strategic approach.

Business

**SAVOLA WORLD**

- Savola World evolved from a department into a standalone private foundation.
- Establishment of Savola Venture Capital Program to invest in disruptive technologies in the food and retail sectors.
- Savola World was among the ‘Top 100 companies in the Middle East’ for 2020 according to Forbes Middle East, ranked 14th in the Kingdom of Saudi Arabia and 39th in the Middle East.

**Forbes**

- Savola was ranked in the top 10 of all non-financial companies traded on Tadawul in the Corporate Governance Index (CGI) by Al Faisal University’s Corporate Governance Center.

**Community**

- Ensuring food security in the Kingdom by increasing stock of products in shops, ensuring food availability and price assurance.
- SAR 10 million in donations for COVID-19 related causes through initiatives by Panda and Savola World.
- ‘Our commitment is our duty’ campaign against COVID-19.
- ‘One Family’ event raises awareness and support for productive families in the community.
- Panda continued its “Can’t miss Initiative” for waste reduction.
- 6,000 people benefited from Savola’s community initiatives and contributions.

**Employees**

- Savola Group participated in the Great Place To Work award, achieving a rank among the Top 20 companies in the Kingdom’s private sector.
- Comprehensive COVID-19 response to ensure our employee’s health and safety.
- Launched a Long-Term Incentive Program (LTIP), called ‘Align Program’ that offers an extensive range of inducements to reward top executives for achieving the Group’s strategic objectives and retain key talent in mission critical roles.
- Savola HQ and SFC maintained Platinum Zone Nitaqat rating.
- Employee retention rate reached 91% in 2020, up from 89% in 2019.
- Savola Group was able to deliver majority of its planned training activities through online delivery platforms, which included collaboration with INSEAD to develop high-potential future managers. SFC also delivered the second round of its Iqtedaa Executive Leadership Program.

**Environment**

- Pand completed the installation of LED lights and Smart Thermostats for air conditioning control and energy savings in 20% of stores.
- USC reduced water consumption by 13 liters per ton of sugar produced, resulting in savings of 16,400 m³ in 2020.
- USC completed the installation and commissioning of a new 5,000 m² evaporator to reduce energy consumption.

**Sector**

- 300+ private label food and non-food products in Panda.
- 75% of IFI’s products are trans-fat free.
- Quality, Food Safety and Environmental Management certifications across all Savola Group companies.
- Mowaamah platform across our intranet, providing valuable resources for all employees.

---

The Savola Group Sustainability Report 2020
Savola Group CEO’s Statement

Savola Group puts sustainability at the heart of our business. We remain committed to act as a responsible corporate leader in the Kingdom and within our industry, integrating sustainability goals and initiatives across our organization and operations while continuously seeking to create value for our stakeholders.

Striving for sustainable impact in a challenging year

The COVID-19 pandemic had a devastating impact on countries, companies and individuals around the world. Given the extensive disruptions as a result of the pandemic, and in view of the challenges faced on our business, Savola Group leveraged its extensive capabilities and resources to support our employees, customers and society through this challenging year. We moved swiftly to implement our remote working program, establish precautionary measures in our offices and facilities, and promote heightened health and safety awareness among our workforce.

Savola Group contributed SAR 10 million in donations to COVID-19 related initiatives and causes throughout the year, including public health information campaigns and food distribution programs across multiple provinces targeting the poor.

As well as contributing to the Kingdom’s food security by maintaining price stability whilst leveraging our robust supply lines and logistics networks, we also undertook rapid action to support our communities during a period of restricted movement. We introduced PandaClick – the new e-commerce platform of our Panda brand. We launched a Negadaha mobile application for smartphones, expanding the program’s reach and impact, and delivering COVID-19 campaigns and awareness events.

As ever, ensuring the safety, health and well-being of our employees were key priorities during 2020. Thanks to our efforts to provide an exceptional working environment for our people, Savola was ranked among the top 10 companies in the Middle East by Forbes in 2020.

Savola Group was named among the top 100 companies in the Middle East by Forbes in 2020.

Furthermore, the formal establishment of Savola World Foundation in 2019 could not have come at a more appropriate time. The Foundation is the product of Savola Group’s extensive experience in the field of corporate social responsibility (CSR), gained over many years delivering successful programs to benefit communities, individuals and various special interest groups by ensuring their health, well-being and equal access to opportunities.

This critical milestone in Savola Group’s sustainability journey represents a new era in the way we channel our support to society, as well as a paradigm shift in the way companies throughout Saudi Arabia can exercise their corporate social responsibilities in the future.

Enhancing sustainability in a changed world

During the year, we continued to develop and deploy sustainable solutions – both directly and through our Savola World Foundation – that are aligned with the needs of local communities and our strategic pillars – Business, Community, People, Environment and Sector.

Our achievements as a business and a socially responsible organization were recognized by a number of local, regional and international bodies, including being named among the top 100 companies in the Middle East by Forbes in 2020, and being ranked in the top 10 non-financial companies traded on Tadawul in the Corporate Governance Index (CGI) by Al Faisal University’s Corporate Governance Center.

As the basis for good human health and that of future generations, our commitment to the environment is equally important to Savola. Achievements in our sector in 2020 included ensuring 75% of IFI’s products are trans-fat free; achieving Quality, Food Safety and Environmental Management certifications across all Savola Group companies; and launching our Mawasah platform across our intranet, providing valuable resources for all employees.

Savola has strong governance and ethical standards in place that represent the foundations of our success and sustainability. They reflect the increasing importance of environmental, social and corporate governance (ESG) in the calculations of long-term investors – a trend that shapes our own investment criteria as a Group.

Savola’s reputation and exceptional performance therefore hinged on our Corporate Governance rules and guidelines, bylaws, Board Charter, Committee Charters, Code of Conduct, transparency and disclosure policies, conflict of interest policy, and ethical values that collectively ensure the high standards of behavior and responsibility demonstrated by our people. Accountability, trust and integrity are essential elements in the story of Savola, and we have always strived to ensure strong ethical conduct in all our engagements.

We count sustainability among the key considerations when monitoring investments, including those made through our new venture capital program, which targets areas complementary to our core business. Whilst our immediate focus is on governance, sustainability will become increasingly important as businesses continue to grow and generate profits.

Meanwhile, our own sustainability focus will be strengthened in 2021 with the formation of two new committees to operate across the organization at Group level – a CSR and Charity Committee, and an Environment Committee.

These committees, respectively, will: define clear and common goals for Group charity work and related activities, as well as create competitive advantages through our programs and related CSR activities; and implement and build upon the Group’s Environmental Policy whilst overseeing all environment-conscious activities.

Looking ahead

In the coming year, Savola Group will continue to allocate considerable resources to support our stakeholders and all segments of society in the Kingdom. In particular, we continue to exist to govern agencies in their admirable efforts to protect the public from the COVID-19 pandemic.

We will also maintain our support for people with disabilities in the workplace and combat public health information campaigns and educational programs and related CSR activities; and be strengthened in 2021 with the formation of two new committees to operate across the organization at Group level – a CSR and Charity Committee, and an Environment Committee.

As we continue to build on our extensive record of sustainable impacts, we will regularly continue our progress achieved across our pillars and programs through future sustainability reports.

Finally, I wish to take this opportunity first to thank our shareholders for their support and guidance and our experienced management team for their continued support and foresight in navigating an unprecedented operating environment, as well as our employees across Savola Group and our board members for their exceptional resilience and commitment to serving our company and the people of the Kingdom throughout the COVID-19 crisis.

Waleed Khalid Fatani
Group Chief Executive Officer

The Savola Group Sustainability Report 2020
Sustainability Strategy
2020 Sustainability Strategy

Savola Group is committed to creating broad and lasting value for our stakeholders, throughout the Kingdom of Saudi Arabia and around the world. In order to achieve this ambition, our sustainability strategy provides a clear roadmap for success across a wide range of material areas to be implemented largely through our groundbreaking new Savola World Foundation.

Savola World Foundation

A game changer for corporate sustainability practice across the MENA region, Savola World concept was created in March 2017 to create value for Savola Group’s stakeholders by promoting socially and environmentally responsible practices. Since its inception, this flagship CSR program has grown and diversified by engaging customers and other stakeholders while forging strong partnerships with the aim of promoting socially responsible behavior change across the sustainability pillars of Community, Employees, Environment, Sector and Business.

At the end of 2019, with broad ambition and in alignment with international best practices in corporate foundations, Savola Group formalized the importance of Sustainability and CSR by transforming Savola World from a department into a standalone private foundation, called Savola World Foundation. This groundbreaking entity was established as a non-profit organization under the supervision of the Ministry of Human Resources and Social Development. Funded by Savola Group and managed by the Board of Trustees, Savola World Foundation will continue to grow and diversify over the years ahead to maximize impact. In close collaboration with a broad network of highly qualified, internationally acclaimed experts, the Foundation focuses on social awareness campaigns, coaching and consultancy, training, events management, research and studies, social impact, and accreditation. Savola Group (The Founder) allocates an annual budget to fund and support Savola World Foundation. It will also seek funding to form partnerships with government and private sector entities to champion environmental, social and governance objectives of Savola Group and the Kingdom of Saudi Arabia, in line with the goals of Saudi Vision 2030.

Alignment with Global and National Initiatives

Supporting the Saudi Vision 2030
Savola has closely aligned our sustainability efforts with the long-term success of the Kingdom of Saudi Arabia. The Saudi Vision 2030 is Saudi Arabia’s blueprint for the future and is based on three pillars: 1 - A Vibrant Society, 2 - A Thriving Economy and 3 - An Ambitious Nation. In line with the Saudi national agenda, Savola’s growth strategy is focusing on sustainability performance, directly benefiting the Kingdom’s socioeconomic development, and reflecting the country’s strengths and capabilities.

A Vibrant Society
Under the pillar of “A Vibrant Society”, Savola has gained great recognition for our initiatives for Saudi citizens. Long-term initiatives including the “Makeen” program, “Sela” program, “Saver” program, “Housing Loans” program for Saudi employees, the “Takaful insurance” and the “Tawoon Fund” are embedded at the heart of Savola efforts to develop advanced talent capabilities, build a workforce for the future and provide opportunities for Saudi professionals.

A Thriving Economy
Savola is committed to supporting the Saudi Vision 2030 for a “Thriving Economy”. To build a more dynamic and robust economy, Savola has seized growth opportunities through strengthening relationships with carefully selected partners and distinguished shareholders and investors. Our network of companies within Savola Group has made us eligible for inclusion in the MSCI (Morgan Stanley Capital International) Emerging Market Index, as part of the Saudi Stock Exchange (Tadawul) inclusion into the MSCI Emerging Market Index.

An Ambitious Nation
Savola has invested in a robust framework of governance, which is in line with the “Ambitious Nation” pillar. Savola operates according to the principles of a high-performance, transparent, effective and accountable governance system. Its goal is to achieve financial prosperity, which will ultimately satisfy the economic and social aspirations of the Saudi Vision 2030.

Savola Group takes great pride in actively supporting the implementation of the Saudi Vision 2030. We will continue our efforts to achieve “A Vibrant Society - A Thriving Economy - An Ambitious Nation.”

Key Efforts to help in Achieving the Saudi Vision 2030
• Comply and support nationalization programs in management and non-management roles across Savola Group.
• Support the new generation of Saudi talent (e.g. the Is’ham Training Program by Pando).
• Involve group employees in social initiatives and volunteering, while promoting personal and professional growth.
• Support women and ensure a work-life balance for all employees.
• Encourage employee participation in sport activities and offer health benefits.
• Be recognized for the high quality of its service.

Adopting the Sustainable Development Goals
In 2015, the United Nations General Assembly formally adopted the 17 Sustainable Development Goals (SDGs) as part of the United Nations 2030 Agenda for Sustainable Development, in order to ensure prosperity and well-being for all people while protecting the planet. The SDGs are a global call to action for governments, companies, and civil society to eradicate poverty, protect the planet and ensure that all people enjoy peace and prosperity. The 17 Goals and the corresponding 169 targets act as a reference guide for governments, companies and civil society so that they take action, address global challenges and transform our world.

At Savola, our strategic direction takes into consideration international frameworks and global initiatives, and we have aligned our sustainability strategy with the SDGs. Our actions can contribute to maximizing the collective positive impact; and we carefully address any potential negative impact from our operations. For the 2020 Sustainability Report, we identified the most important topics and reviewed how they align with the SDGs. After identifying and reviewing them, we concluded that 10 Goals are more relevant to us.

Savola’s Alignment with the Sustainable Development Goals

Our Focus Moving Forward

Over the coming years, Savola World Foundation will continue to build on its early successes, evolving its strategy based on a new vision and launching new sectoral-based programs that deliver impact, aligned with its new strategic direction, the priorities of Saudi Arabia Vision 2030 and the UN’s Sustainable Development Goals.
Integrating SDGs into Core Business

To enhance the Group’s sustainable performance, maximize the positive impact of our core activities and ensure effective governance of our operations, we have linked our five sustainability pillars to the SDGs.

### Relevant SDGs

**Zero hunger**
- We work with focus and determination to avoid and minimize food waste. In 2020, we continued our landmark food waste management program, Negaderha, as well as our collaboration with the World Resources Institute (WRI) and the largest food retailers to combat food losses and waste, which was expanded in 2020 through the launch of a dedicated mobile app, while Panda continued its “Can’t miss Initiative” for waste reduction.

**Good health and well-being**
- We take the health and well-being of our people and our communities very seriously, and this has never been as important as this year during the COVID-19 pandemic. During 2020, we took action to leverage our position and resources to support our employees, customers, suppliers, partners, and communities (see page 34), with donations of SAR 10 million for COVID-19 related causes through initiatives by Panda and Savola World. Our commitment to the health and well-being of our employees was recognized when Savola was named one of the Top 20 Great Places To Work® in the Kingdom of Saudi Arabia, while our employees also enjoyed a range of health services, gym access, health campaigns and seminars throughout the year. We also reached a milestone during 2020 of 75% of all products being transfert free, supporting the health of our customers and community.

**Quality education**
- We aim to be an employer of choice for top talent, with a particular focus on Saudi nationals. We take a proactive approach in attracting, developing and retaining Saudi talent, while investing in their success. We provide learning and development opportunities for all our employees, in order to enhance their skills and careers. Launched in 2010, our Makeen program continued to impact the lives of people with disabilities during 2020, Panda’s i’m Train Program continued to support the success of young Saudi talent. During the year, SFC also delivered the second round of its Iptedaa Executive Leadership Program.

**Gender equality**
- We are committed to equality, diversity, and inclusion across Savola Group. Through fair hiring practices, we continue to grow our female workforce across the Group, while also establishing and enforcing a range of policies and initiatives to empower our female employees and create a supportive work culture and environment for them. In 2020, we increased our female workforce across the Group by 7% to reach 1,285 women.

**Decent work and economic growth**
- We empower and support our employees across Savola Group through a corporate culture of “Value based on Values”. As a leading Saudi company and employer of over 24,000 people, we contribute to the economic growth of the Kingdom and create jobs throughout Saudi Arabia and the region. In 2020, we launched a Long-Term Incentive Program (LTIP), called the “Align Program”, to create value for our employees, which included the buy-back of SAR 16.5 million worth of shares. We organized numerous programs, including “Makeen”, “WAEI” and the “STOP” program, to support, develop and empower our people.

**Reduced inequalities**
- We promote diversity and foster understanding across our Group. We enjoy Movassah Certification – Gold status in recognition of our commitments and initiatives to support people with disabilities. Our Makeen program has helped us make great strides in reducing inequalities, eliminating discrimination, and boosting the recruitment of people with disabilities throughout the Kingdom. Meanwhile, we increased our female workforce by 7% across the Group, and Savola HQ and SFC both maintained a Platinum Zone Nitaqat rating in 2020.

**Responsible consumption and production**
- We recognize the role we play in the Kingdom in tackling sustainable food consumption and responsible production. During 2020, we continued promoting behavioral change through our Rapship Negaderha program, which increased its reach and impact during the year with the launch of the Negaderha mobile application for smartphones. Panda continued its “Can’t miss Initiative” to put an end to unnecessary waste, and our partnership with Saudi Grains Organization (SASO).

**Climate action**
- We seek to minimize our environmental footprint and operate in a responsible and sustainable manner. As one of the trailblazers in sustainability reporting in the Kingdom, we seek to continuously improve how we plan, prioritize, measure and account for our environmental impact, energy use and waste management. We recognize the need to build on the foundation we have established to take our sustainability program and initiatives to new heights through focus and collaboration.

**Peace, justice and strong institutions**
- We are active in the fight against corruption and bribery, through our robust corporate governance practices, strong risk management function, and corporate culture of openness and accountability. Our Audit Committee, Internal Audit Departments, Risk Management Department, Governance and Compliance Bodes work to reduce risks, while KPMG performs an audit of Group financial statements. We foster open communication and transparency through our Tawer program, which helps us listen to our employees, and our Integrity Hotline. Our annual Sustainability Report further enhances transparency and engagement with our stakeholders.

**Partnerships for the goals**
- We are constantly working to strengthen global partnerships for sustainable development. As part of the MSCI Emerging Markets Index and the first Saudi company to become a member of the International Labor Organization (ILO) Global Business and Disability Network, we remain focused on building mutually beneficial partnerships during a challenging and volatile year, seeking through collaborations with government and private sector organizations within the Kingdom of Saudi Arabia and across our geographic footprint.

**Alignment with Global Standards and Charters**

In order to integrate sustainability into several aspects of our business, map existing programs to the SDGs and ensure a more comprehensive approach to sustainability, we have consulted a wide range of external sources. These included international sustainability standards and frameworks (such as GRI, CDP and Gusi Index) as well as general guidelines, regional legislation, and sector best practice.

In addition to the Saudi Vision 2030 and the SDGs, Savola Group also endorses several external charters and standards developed by international national bodies and authorities. Among others, these include:
- The GRI Standards for Sustainability Reporting as developed by the Global Reporting Initiative (GRI)
- Ministry of Labor: labor law charters and practices.
- The Saudi Standards, Metrology and Quality Organization (SASO).

### Stakeholders

As a leading strategic investment holding Group in the food and retail sectors in the Middle East and North Africa (MENA) Region, we are accountable to a diverse group of stakeholders, including companies of the Group, employees, suppliers, local community, partners, consumers, customers, investors, shareholders and government. Each of the previously mentioned stakeholders has a specific set of interests and expectations from our business.

We recognize that working to improve social and environmental issues is a major challenge. We will improve our understanding of current issues and emerging sustainability trends through a journey of cooperation and engagement with stakeholders. At Savola, we strive to create great-shared value and improve life in the societies in which we live and work.

The following table provides a high-level overview of our stakeholders, with specific indications of how we are involved with them on social and environmental issues.

**Our Focus**

Savola Group will maintain focus and commitment on delivering through our diverse activities, to the relevant UN Sustainable Development Goals and the goals of Saudi Vision 2030 through the implementation of our Sustainability Strategy, in order to fulfill our Vision and honor our Mission. We will continue to build capabilities, partnerships, and resources to accelerate the impact of the Group’s sustainability programs, initiatives and activities to contribute to a better world and a thriving, broad-based national economy.
Our Stakeholders

Investors and Shareholders

Stakeholders
To ensure sustainable and profitable growth, we work closely with investors and shareholders within a responsible and ethical business practices framework.

Key concerns
• Positive return on investment.
• Reputation management.
• Risk management.

Engagement type
• Participate in Shareholders General Assembly and Extraordinary General Assembly Meeting.
• Investor Relation Programs” for investors.
• Financial and non-financial reports on Tadawul website and in the published media.
• Department for shareholders’ affairs.
• Email subscription center and investor relations app.

Consumers and Customers

Stakeholders
To focus on understanding and meeting customer needs, and on exceeding their expectations. Through trusted brands, to offer quality products that support the lifestyle choices of our consumers, and to place them at the heart of our operations.

Key concerns
• Fair prices.
• Ethical business conduct.
• Creating value for society’s different economic segments by providing value for money products and services, and world-class quality experiences.

Engagement type
• Business development process.
• Market and satisfaction surveys.
• Customer care departments.
• Traditional media channels, social media, and online portals.
• Website.

Suppliers

Stakeholders
To invest in long-lasting relationships with our suppliers. Establishing strategic supplier partnerships ensures value creation in all stages of our extended value chain.

Key concerns
• Transparent bidding process.
• Smooth invoicing and payment processes.

Engagement type
• Strengthening relationships with business partners.
• Integrated social and environmental considerations into the supplier selection process.
• Adherence to the Code of Conduct and Ethical Values.
• Support local suppliers in the Kingdom of Saudi Arabia.

Employees

Stakeholders
To work continuously to create an approachable work culture of communication, camaraderie and performance for our valued employees.

Key concerns
• Job security.
• Fair compensation and benefits.
• Opportunities to develop.
• Ethical conduct.

Engagement type
• Program for training and employing people with disabilities.
• Initiatives to measure employee engagement, enhance the work environment and bring employees and their families together.
• Programs for women empowerment and employment.
• Employee assistance.
• Health benefits and seminars.
• Volunteering opportunities.

Community

Stakeholders
To engage with community members, non-profit organizations, charitable establishments, employees, suppliers and other stakeholders in new initiatives and long-standing programs that make a positive impact and enhance community well-being.

Key concerns
• Engagement and involvement in decision-making.
• Investment in local communities.
• Supporting local enterprises.

Engagement type
• The “Leave the Change for Them” charity. Panda customers donate the small change from their purchases to charities across the Kingdom of Saudi Arabia.
• “Makken” program to train and employ people with disabilities.
• Cooperation and supporting other social institutions to design educational, health and social programs.
• Internship opportunities for undergraduates.
• Corporate Social Responsibility (CSR) Committee (which is currently becoming Board of Trustees of Savola World).

Partners

Stakeholders
To build strong relationships with respected partners, with whom we join forces to create positive value.

• Fair dealings.
• Openness and transparency.
• Creating value through mutually beneficial dealings.

Engagement type
• Participate in innovative sustainability initiatives.
• Develop new programs and solutions.
• Utilize strengths to make a positive impact.
• Collaboration agreements (MoUs).

NGOs

Stakeholders
To engage with community members, non-profit organizations, charitable establishments, employees, suppliers and other stakeholders in new initiatives and long-standing programs that make a positive impact and enhance community well-being.

Key concerns
• Supporting local enterprises.
• Ethical business conduct.
• Fair prices.
• Creating value for society’s different economic segments by providing value for money products and services, and world-class quality experiences.

Engagement type
• Business development process.
• Market and satisfaction surveys.
• Customer care departments.
• Traditional media channels, social media, and online portals.
• Website.

Board of Directors

Stakeholders
To lead in sustainability and continuously honor our values.

Key concerns
• Positive return on investment.
• Reputation management.
• Risk management.

Engagement type
• Board of Directors meetings.
• Shareholders General Assembly.
• Board committees.
• Engagement with executives.
• Financial and non-financial reports.
• Setting the Company’s strategic direction and plans.
• Approving policies and procedures including Corporate Governance Code.

Government and Regulators

Stakeholders
To operate according to national and international laws and regulations, and to work in a responsible manner that contributes to the country’s advancement and corporate performance, thus enabling us to support the community’s well-being while contributing to a healthy environment.

Key concerns
• Compliance with laws and regulations.
• Local employment opportunities.
• Support Saudi Vision 2030 and SDGs.

Engagement type
• Strong management and governance systems.
• Respond to government requests and participate in government programs.
• Collaborate with government stakeholders to advance common citizenship goals.
• Publish quarterly financial results.
• Support Government COVID-19 response and food security.
Materiality

Determining Areas of Focus

In our increasingly interconnected world, organizations deal with many economic, environmental, and social issues on which they can report. Identifying material topics provides direction for strategy and communication. As we operate in a complex and unpredictable business environment, conducting a material assessment allows us to identify the sustainability topics that are a priority to us and our stakeholders.

Savola Group CSR Strategic Objectives

- Improve company social image and position Savola as the “CSR Game Changer”
- Establish Savola competitive edge in scalable and sustainable CSR
- Communicate Savola CSR practices to reinforce Savola ethical brand positioning
- Aim for measurable social return on investments for our sustainability and CSR activities
- Boost external relationships with key stakeholders

Materiality Process

Material topics form the basis of our Sustainability Report and reflect the economic, environmental, and social impacts of the Group. Moreover, material topics influence our stakeholders’ decisions. We have conducted an extended materiality assessment and updated our materiality analysis to ensure that both the assessment and the analysis reflect the current business strategy on related sustainability issues and stakeholder priorities. We took into account a range of national, regional and global challenges, trends and approaches. We engaged with internal and external stakeholders to identify the most critical sustainability issues for our business and stakeholders. We also consulted several international standards, frameworks and best practice examples in order to design and conduct our materiality assessment in accordance with the principles of the GRI standards, including the principle of Materiality. Key steps of the process include:

1. Identification
   - Identification of potential material topics
2. Prioritization
   - Assessment and ranking by internal and external stakeholders
3. Validation and approval
   - Adherence to best practices, standards, frameworks, strategic direction.
   - Validation of topics
4. Communication
   - Communication via the Sustainability Report

Materiality Matrix

An important outcome of the materiality assessment is the development of our materiality matrix, which illustrates all the material issues and their prioritization. Materiality demonstrates our commitment to sustainability and is an invaluable tool for risk management and opportunity identification. The materiality process has revealed 30 material topics that we can possibly categorize under five strategic pillars: Employees, Community, Sector, Environment and Business. At Savola, our sustainability strategy is deeply rooted in maximizing positive impact; the materiality matrix helps us focus our energy and activities on influencing global change and achieving the SDGs and the Saudi Vision 2030.

Strategy for an Interconnected World

At Savola, we see every day the positive value that can be created when all stakeholders come together under a common goal. Our active collaboration with government, civil society, international and national expert bodies creates more opportunities and paves the way for an interconnected world. Pursuing our sustainable business strategy and achieving our targets to drive impact for the benefit of the well-being of the community and the health of the environment.

Our Focus Moving Forward

As Savola Group’s strategy and activities continue to evolve, we will continue to strengthen our relationships with stakeholders and actively engage to update the topics that are material to them and our business. This will provide a strong foundation for keeping our sustainability strategy and operations up-to-date and relevant, while striving to transparently meet our commitments and fulfill our stakeholders’ requirements.

Business
Savola is committed to improving the lives of the people and communities in which we serve. As a responsible corporate citizen, Savola's goal is to deliver positive impacts on the lives of our people, the communities we serve and the environment we share. This represents a key foundation of our values and governance, which guides our decision-making processes and influences all aspects of our operations. Savola therefore maintains the highest standards of safety, governance, environmental and ethical conduct across our value chain, creating value for our business, our communities and the Kingdom as a whole.

A Leader in Food and Retail
With an extensive portfolio of popular food and retail brands, Savola is one of the leading strategic investment holding companies in the Middle East and North Africa (MENA) region.

Business

Savola maintains a portfolio of well-known brands across the MENA, producing consumer packaged goods in more than eight countries for export to 50+ markets around the globe, many of which are leading brands in their respective categories.

### Food Investments

</table>

### Retail Investments

Savola’s retail portfolio is led by Panda Retail, the largest modern grocery chain in Saudi Arabia. With a total of 205 stores (including four in Egypt), Panda enjoys a significant market share with a formidable geographic reach, serving more than 100 million customers each year.

### Ownership of Panda Retail

98.87%

### Ownership of Herfy

49%

### Positive Performance and Profitability

Despite the unprecedented challenges of 2020, Savola achieved resilient revenue growth and a significant increase in profits, driven by a resurgent Panda, growing profits from Al Kabeer, and ongoing cost efficiency and optimization measures, building on our positive momentum and creating sustainable value for our shareholders.

Backed by our dedicated workforce and robust corporate strategy, we successfully maintained our growth trajectory in 2020, with sales revenue rising 1.4% from SAR 21.4 billion in 2019 to SAR 21.7 billion in 2020, largely driven by the strong performance of our retail investments. While revenue from Savola Foods Company’s fell by 6% in 2020, revenue from Panda Retail and Al Kabeer Group increased by 9% and 18.8%, respectively. Consequently, Savola’s full-year net profit rose from SAR 476 million in 2019 to SAR 910.8 million in 2020, delivering earnings per share of SAR 1.71, compared to SAR 0.89 in 2019.

This performance provides a springboard for further capital investment in complementary new food and retail categories through our new venture capital program targeting acquisitions in disruptive companies and technologies to fuel non-organic growth from our core sectors.

Our Journey

Four Decades of Growth and Diversification

1970s

1979 Savola is established, with a paid-up capital of SAR 40 million and 50 employees.

1980s

1981 Savola’s edible oil refinery, the first in Saudi Arabia, begins operations in Jeddah.

1982 Afia premium corn oil launched. By the late 1980s, Savola captures 70% of the Saudi edible oil market.

1988 Herfy through the Panda merger.

1990s

1991 Savola acquires a 40% shareholding in Almarai.

1992 Savola becomes a publicly listed company on the Saudi Stock Exchange (Tadawul).

1993 Joint venture with Tate & Lyle establishes United Sugar Company, Saudi Arabia’s first sugar refinery.

1995 Afia International Egypt is formed through the merger of Savola Egypt and SIME Derby Egypt.

Savola Foodstables an edible oil factory in Egypt.

1998 Savola enters the retail sector, following its merger with Alizia Panda.

2000s

2003 Savola Foods establishes edible oil businesses in Morocco and Sudan.

2004 Panda launches the Hyper Panda format.

2005 Savola establishes Kinan Real Estate, subsequently divesting 70% through private placement.

2006 Savola becomes the founding sponsor of the Corporate Governance Index (CGI) by Al Faisal University’s Corporate Governance Center.

2009 Panda acquires Giant Stores and opens its first central distribution center in Riyadh.

2010 Savola launches its first CSR program, ‘Makeen,’ to train and empower people with disabilities.

2015 Savola Foods enters the seafood business with global seafood leader, Thai Union, to launch the famous John West brand in 12 markets across the MENA region.

2017 Savola sells a 2% stake in Almarai as part of its capital realization, whilst maintaining the largest shareholder with a 34.52% stake.

2018 Savola acquires a majority stake (51%) in Al Kabeer, one of the region’s leading frozen food companies.

2020 Savola is ranked among the top 10 non-financial sector companies trading on Tadawul in the Corporate Governance Index (CGI) by Al Faisal University’s Corporate Governance Center.

Savola named by Forbes Middle East among the ‘Top 100 companies in the Middle East’ in 2020, ranked 14th in the Kingdom of Saudi Arabia and 39th in the region.

2020 Savola is named among the Top 20 Great Places to Work® in the Kingdom of Saudi Arabia.
As a successful strategic investment holding company active in the food and retail sectors, Savola's perceptive strategy and dynamic business model creates increasing value for our stakeholders by stimulating consistent portfolio growth.

A Model for Resilience and Sustainable Growth

Leadership and Governance
By identifying and implementing best practices across our portfolio, our governance structures serve to align incentives among our stakeholders and ensure Savola operates under the direction of the most effective leadership and management.

Target Setting and Performance Monitoring
Savola maintains effective performance management across our portfolio by applying short-term and long-term operational and financial KPIs, with proactive periodic reviews that prioritize our core interests.

Capital Allocation
Savola aims to maximize returns on investment through targeted capital deployment, enhancing shareholder returns and creating added value by engaging in segments with long-term potential within the consumer space, whilst also securing sustainable returns.

Long-Term Strategic Planning
Savola takes a holistic view of our business environment, assessing our markets, holdings, and operations with a view to maximizing our share of consumer spend over the long-term.

Strengths

Strategic Focus
Our operations focus on long-term consumer trends, dynamically allocating capital to generate sustained value growth.

Strong Governance Framework
Our robust governance and transparency framework, prioritized throughout Savola's history, builds shareholder trust.

Infrastructure and Consumer Access
Our holdings represent Saudi Arabia's largest distribution network, retail space and brand portfolio in the country's consumer space, touching the lives of millions of consumers across our markets.

Our Strategy and Business Model

Challenges

- Challenging macro-environment across our operating countries, with disruption caused both by the COVID-19 pandemic and ongoing economic reforms that threaten to undermine consumer purchasing power.
- Changing consumer behavior is affecting customer preferences and tastes in a pronounced manner, with potential implications for existing products and business models.
- Limited number of transactable assets, from the perspective of an investment holding whose key directive is to allocate capital.
- High relative valuation of food assets, in view of the scarcity of sizeable assets that fit Savola's investment mandate, as well as other factors such as economic and business cycles, and their impacts on such assets.

How we add value

Leadership and Governance
By identifying and implementing best practices across our portfolio, our governance structures serve to align incentives among our stakeholders and ensure Savola operates under the direction of the most effective leadership and management.

Target Setting and Performance Monitoring
Savola maintains effective performance management across our portfolio by applying short-term and long-term operational and financial KPIs, with proactive periodic reviews that prioritize our core interests.

Capital Allocation
Savola aims to maximize returns on investment through targeted capital deployment, enhancing shareholder returns and creating added value by engaging in segments with long-term potential within the consumer space, whilst also securing sustainable returns.

Long-Term Strategic Planning
Savola takes a holistic view of our business environment, assessing our markets, holdings, and operations with a view to maximizing our share of consumer spend over the long-term.

Our Values

Since Savola was founded in 1979, our values have provided the foundation and motivation for everything we do. They represent a blueprint for the actions we take each day as individuals and teams, and as a responsible company.

Individual
Tawado: (confident humility): the confidence to perform our responsibilities with humility.
Il’tiqan: (the relentless pursuit of perfection): the ability, willingness, desire, and intent to do our best to ensure that work is completed to the highest standards.
Azm: (fierce resolve): applying what we learn to improve ourselves.
Iq’tida: (apprenticeship): seeking out, interacting with, and learning from those who are more knowledgeable than us.

Group
Ihsan Al-Dhan: (trust): trusting others' intentions without doubt.
Mu’zarah: (caring): providing support to our colleagues to enable their success.
Qabool: (acceptance): embracing the views of others by going beyond tolerance or acceptance.
Iq’bal: (approaching): improving what we do by applying what we have learned from the interaction with others.

Corporate
Taqwa: (conscientiousness): fulfilling our responsibility to external parties.
Amanah: (honesty): fulfilling our responsibilities to investors.
Mujahadah: (personal control): achieving the personal discipline necessary to fulfill our responsibilities.
Birr: (caring justice): fulfilling our responsibilities towards our colleagues and the employees of the Company.
A Unique Investment Proposition

A leading Saudi investment holding company, Savola’s portfolio features the largest assets and brands in food production, marketing, distribution, and retail in the Kingdom and beyond, providing shareholders with unparalleled access to these sectors.

Regional Leadership

SAR 22 billion
One of the largest food and retail holding companies in the region, with an annual turnover of over SAR 22 billion.

Forbes Top 100
 Ranked 14th in Saudi Arabia and 39th in the Middle East in Forbes Middle East’s annual list of Top 100 companies in the region.

#1 Staple food business
The #1 basic foods business in the MENA, Savola has market leading positions and brands across the consumer staples and value-added ranges, including edible oils, sugar, pasta and frozen foods.

#1 Grocery retailer
The #1 grocery retailer in Saudi Arabia, Panda has strong brand equity and 28%+ market share in the attractive and under-penetrated modern retail space of the GCC’s largest domestic market.

A majority shareholder
The largest shareholder in two of Saudi Arabia’s leading consumer brands, Almarai and Herfy, as well as popular frozen food brand, Al Kabeer.

Unique Consumer Understanding and Footprint

200+ stores
A dominant retail footprint with 200+ Panda and HyperPanda stores in 40+ cities across the Kingdom, with 100+ million annual transactions, backed by the largest logistics network in Saudi Arabia.

Serving 400+ million potential customers
Direct manufacturing and distribution strength in more than eight countries, with 14 facilities serving a combined population of more than 400 million people.

Attractive exposure
Access to a large and growing population base with favorable demographics i.e., more than 50% below the age of 35 years.

Extensive knowledge
Extensive consumer, market and brand knowledge, leveraged to launch, grow and maintain market-leading positions and products (Afia, Al Osra).

Customer-centric
Delivering continuous customer-centric innovation and product development based on deep consumer outreach, capitalizing on strategic opportunities in the rapidly evolving consumer space in the MENA and beyond.

Dynamic Capital Allocation

Unique investment model
Unique investment-holding business model that allows for strategic investments and value creation in the MENA consumer food and retail spaces.

Experienced leadership
Experienced leadership team with a clear mandate to deploy and reallocate capital to enhance shareholder returns through investments in consumer segments with long-term growth potential.

40+ years
40+ year track record of business growth, active capital reallocation and long-term investment horizon.

Sustainable growth
Actively exploring multiple food and retail investment avenues to drive sustainable growth for the Group.
COVID-19

Safeguarding Savola and Our Stakeholders Against COVID-19

The unprecedented challenges of the COVID-19 pandemic set 2020 apart from any other year in Savola’s history, affecting not only our markets but also the immediate social, physical and mental well-being of our employees, customers, suppliers, partners and communities. Our swift, coordinated response leveraged our position both as a key contact point with the communities we serve, and as an integral enabler of food security in the Kingdom and abroad, bringing to bear our extensive, complex and dynamic food and retail supply chains to protect our employees and suppliers, as well as the Kingdom and its people.

For our employees
- Remote work and support.
- Diverse precautionary measures in HQ and offices, including regular health and temperature checks, and sanitization of facilities.
- Promoting increased health and safety awareness through mass communications and training.
- Ensuring food security in the Kingdom by increasing stocks in shops as well as providing food availability and price assurances.
- Creating new, safe channels to access products, such as PandaClick.
- Frequent, transparent communications.
- Comprehensive health and safety measures in all locations.

For our customers
- Safeguarding critical elements of the supply chain.
- Close monitoring of trends and restrictions to enable agile adaptation.
- Frequent digital communication and collaboration with key suppliers to add inventory buffers as needed.
- SAR 10 million in donations for COVID-19 related causes through Panda and Savola World.
- Community awareness campaigns.
- Ensuring social distancing at Savola premises.

For our suppliers
- Virtual Annual General Meeting (AGM), enabling our shareholders to participate in the meeting through a mobile app.
- Recommended 2020 dividends be increased significantly over those of 2019.
- Increased frequency of investor conferences held by leading regional and international financial institutions.

For our communities
- SAR 10 million in donations for COVID-19 related causes through Panda and Savola World.
- Community awareness campaigns.
- Ensuring social distancing at Savola premises.

For our shareholders
- Zero cases of non-compliance with laws, rules and regulations.
- Zero penalties or precautionary measures.
- Zero incidents reported for legal action.
- Zero fines or penalties for regulatory violations.
- Realize our full potential.
- Promote the progress of others.
- Ensure that those we are responsible for are treated with respect and objectivity.
- Conscientiousness
  - Is the decision legal and have we checked its legality with the appropriate parties or references?
  - Even if the decision is legal, will I be able to publicly admit to it and stand by it?
  - Do I feel comfortable with the decision?
  - Do I feel that what I am doing is not only legal but fair?
- Caring Justice
  - Provide managers, subordinates and colleagues with clear and accurate feedback.
  - Acknowledge the accomplishments and achievements of others, both financially and non-financially.
  - Ensure that those we are responsible for develop in accordance with their needs and the needs of the organization.
  - Promote the progress of others, especially if they are deserving of this progress.
- Personal Control
  - Realize our full potential.
  - Achieve a life of balance and satisfaction.
  - Drive towards self-improvement and increasing self-discipline.

The Principles of our Business Ethics

All of our relationships and interactions are governed by our ethics, namely: honesty (Amanah), conscientiousness (Taqwa), caring justice (Birr) and personal control (Mujahadah).

Honesty
- Always tell the truth, no matter what situation we might find ourselves in or how beneficial lying might appear in the short-term.
- Always fulfill our promises and obligations.
- Always honor our pledges to others.
- Always commit to resolving conflicts with respect and objectivity.

Conscientiousness
- Is the decision legal and have we checked its legality with the appropriate parties or references?
- Even if the decision is legal, will I be able to publicly admit to it and stand by it?
- Do I feel comfortable with the decision?
- Do I feel that what I am doing is not only legal but fair?

Responsible Management and Ethics

Our Code of Conduct

Savola maintains a steadfast Code of Conduct and Ethical Values that influence every aspect of our business. The Code, which covers the actions of the entire Group and its subsidiaries, sets legal and ethical standards of conduct and acts as an ethical cornerstone for all employees, allowing them to recognize risks and act according to the values of Savola. The Code is therefore fundamental to the duties and responsibilities of Savola employees, covering all key aspects of legal and ethical standards of conduct, including conflict of interest, gifts, harassment, nepotism, employee relations, sales, confidential information, the environment, corruption and bribery.

The Integrity Hotline provides a confidential reporting framework, overseen by the Audit Committee and the Board of Directors. In conjunction with the whistleblowing policy, the Hotline creates a safe and reliable mechanism for reporting concerns about workplace practices. The Integrity Hotline can be accessed through www.hotline.savola.com.

Panda “Speak Up” Program

Panda operates the “Speak Up” program to enable all employees to report misconduct and unethical acts. The platform strengthens trust with our stakeholders, which forms a key aspect of Panda’s strategy.

Number of cases reported and investigated in 2020:

Savola Group
2
Savola Food Company
33
Panda
952

In 2021, we will continue to empower our employees to exercise independent professional judgment and act according to our values and ethics. Our value system and advanced business tools, including the Integrity Hotline, guide and support all employees to act in a manner that enhances our relationships with stakeholders and contributes to our reputation.
Our business reflects our organizational culture and values, which have a deep meaning for both our internal and external stakeholders. Our values provide the very foundations of Savola Group and are central to our success and longevity. They also underpin everything we do; acting as a blueprint for decisions, we make as individuals and as part of a team. Each day, when our employees engage with our partners and other stakeholders, they act according to our values, our principles and their own personal judgment. Since the Group was founded in 1979, our values, principles and governance mechanisms have served to protect us from potential conflicts of interest.

The three defining, interdependent pillars of our organization’s ethos are individual, team and organizational traits and values, which we perceive as follows: 

<table>
<thead>
<tr>
<th>Self-Nourishment (Personal Traits)</th>
<th>Interactive Nourishment (Teamwork Dynamics)</th>
<th>Released Nourishment (Organizational Culture)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Individual values powerfully reflect the individual traits and behavior expected from all Savola employees.</td>
<td>Our teamwork values emphasize the importance of working together as one, with an emphasis on empathy and teamwork.</td>
<td>Through the Group’s organizational values, which complement each other and are integrated into all our activities, Savola continues to provide value and serve our stakeholders in the best possible way, with:</td>
</tr>
<tr>
<td>Modesty</td>
<td>Trust</td>
<td>Righteousness</td>
</tr>
<tr>
<td>Following example</td>
<td>Leniency</td>
<td>Fulfilment</td>
</tr>
<tr>
<td>Resolution</td>
<td>Keenness</td>
<td>Persistence</td>
</tr>
<tr>
<td>Mastery</td>
<td>Solidarity</td>
<td>Integrity</td>
</tr>
</tbody>
</table>

We will continue to place our values at the forefront of our activities and incorporate them into our daily decisions and behavior. Through our organizational culture and values, we retain a keen awareness of our responsibility to our stakeholders and aim to act as role models for generations to come.

Strong governance and ethical standards provide the foundations of our success and sustainability. Savola’s reputation and exceptional performance hinge on our Corporate Governance Manual, Committee Charters, bylaws, Code of Conduct and ethical values, authority matrix, and other internal CG policies and international leading practices such as S&P guidelines for disclosure and transparency that collectively ensure the high standards of behavior and responsibility demonstrated by our people.

Savola Group Board of Directors
Savola’s highest governance body, the Board of Directors plays a fundamental role in setting the Group’s strategic direction, priorities and objectives while overseeing their implementation. It sets the tone from the top for shaping and monitoring the ethical culture of Savola while protecting stakeholders’ rights, in accordance with its Charter. The Board fosters a culture of honesty and accountability, adheres to the principles of transparency, disclosure and responsibility, and seeks to lead by example. The Board comprises of 11 highly qualified non-executive and independent members. For more details about the role, responsibilities, and members of the Board of Directors, please refer to the 2020 Annual Report and Savola’s website: www.savola.com.
Key Achievements

- Zero fines and penalties during 2020.
- Compliance with Savola Corporate Governance policies, rules, and Companies’ Law.
- All financial disclosures, including the Annual Directors Report, CMA quarterly and annual financial disclosures, other reports and Tedawil announcements were carried out in compliance with the relevant guidelines, local and Corporate Governance best practices.
- All announcements and reports issued in both Arabic and English targeting both Arabic- and non-Arabic-speaker investors.
- Empowerment of Board and committee members by proper utilization of Board Portal for easy materials accessibility of effective operations.
- Conducting annual assessment of Board and all committee members under RNC supervision. Savola has been adopting this practice since 2007, whether by doing it in-house or by using an independent expert.
- Approving Savola Group’s CSR Policy by the Shareholders’ General Assembly.
- Brought back the Company’s shares to outstanding talent and to motivate them program aims to attract and retain outstanding talent and to motivate them. The program aims to attract and retain outstanding talent and to motivate them to further strengthen their performance to achieve Savola Group objectives.
- Continue ensuring our operating companies and subsidiaries have a proper corporate governance framework in place and are acting in line with leading governance practices.
- Active investors’ engagement on a continuous basis through dedicated quarterly investor calls and conference attendance, and dedicated IR application.

Investment Committee
The Investment Committee comprises five non-executive and independent board members. In 2020, the Committee held seven meetings to enhance the committee’s role in following up and implementing strategic plans regarding investment opportunities. For more details on the roles and the responsibilities of the Investment Committee, please refer to page 89 of Savola’s 2020 Annual Report, which is available on the Group’s website.

Audit Committee
The Audit Committee consists of five members. The Committee meets periodically at the invitation of the president. In 2020, the Committee held six meetings. For a complete list of the Audit Committee’s responsibilities and key activities, please refer to page 111 of the 2020 Annual Report.

Remuneration and Nomination Committee (RNC)
The Remuneration and Nomination Committee comprises five members who are independent and non-executive members with expertise in the committee’s mandates. In 2020, the Committee held three meetings to follow up on its responsibilities in remuneration, nominations, and corporate governance. For a complete list of the responsibilities of the RNC and its major activities, please refer to page 88 of the 2020 Annual Report.
Shareholders’ Rights

Shareholders General Assembly Meeting

Savola Group held its Shareholders General Assembly on 29 April 2020 virtually due to the precautionary measures to limit the spread of COVID-19. Electronic voting was conducted for all shareholders via Tadawul platform. All Board Members and executives attended the meeting remotely, and a considerable number of shareholders participated virtually in the voting. Q&A were addressed by the Board and management. The legal quorum was present and was above 60%.

Effective Risk Management

Savola Group is exposed to a variety of risks and uncertainties, given its focus on investments in the food and retail sectors and extensive range of associated products. Therefore, the Group applies rigorous risk management mechanisms, largely based on training and prevention, in order to safeguard sustainable value for our partners, investors, employees, consumers, communities and other stakeholders.

Savola continues to improve its governance and develop the risk management culture to mitigate risks and protect shareholders’ interest. Savola’s risk governance support this by applying “Three Lines of Defense” model to ensure accountability across the Group for governance, risk management, and internal control. Each of the Three Lines of Defense plays a distinct role within Savola’s governance framework.

Enterprise Risk Management Framework

Savola has developed an integrated Enterprise Risk Management (ERM) framework to support the success of the Group and progress toward its strategic goals. Drawing on market-wide best practices, the framework involves a collaborative risk management environment that proactively identifies, monitors and mitigates risk whilst delivering high quality information in order to:

- optimize the cost of managing business risks;
- enable informed and conscious risk management choices on an enterprise-wide basis;
- improve overall business performance.

The ERM framework addresses Savola’s business needs while remaining simple, pragmatic and aligned to Savola’s strategy.

Savola has aligned the ERM framework with international standards (ISO 31000) and leading risk management practices. The risk management function comprises a dedicated team to lead activities across the Group, assisted by risk champions who implement risk management activities within respective business units/functions.

Strengthening our Risk Management Culture: WAEI

We continue to strengthen our risk management culture and corporate excellence through WAEI program. WAEI is a risk management awareness program, which provides a periodic communication for knowledge-sharing concerning business-related risks as well as risk management key activities and concepts.
Community
Community

As a committed and responsible corporation, Savola Group understands that sustainability is a vital pillar in our community engagement approach and is embedded within all our initiatives to support the Kingdom and its people.

Engaging with the Community in 2020

As a responsible corporate player and member of society, Savola Group maintains a highly active program of community engagement activities and initiatives to improve the well-being of our stakeholders and the success of the nation.

Sustainability is woven into all of these engagements and interactions, reflecting our aim to place the Kingdom on a more socially and environmentally conscious path that will benefit future generations and support the global transition embodied by the UN Sustainable Development Goals.

Throughout 2020, the driving focus of our engagement approach and is embedded within all our initiatives to improve the well-being of our stakeholders and the success of the nation.

Sustainability is woven into all of these engagements and interactions, reflecting our aim to place the Kingdom on a more socially and environmentally conscious path that will benefit future generations and support the global transition embodied by the UN Sustainable Development Goals.

Throughout 2020, the driving focus of our community activities was on supporting the Kingdom and its people through the COVID-19 crisis. The Group provided SAR 10 million in support of these initiatives, delivered together with Savola World Foundation.

They included the distribution of 20,000 food baskets to families affected by the crisis, coordinating our efforts with local authorities across the country to ensure maximum impact, and issuing special shopping cards for healthcare workers in cooperation with the Ministry of Health.

In addition, Savola launched an extensive community awareness campaign, delivered through social media, featuring educational videos to increase public awareness regarding the recommended precautions to limit the spread of the virus.

Community Initiatives and Investments

Each of our community initiatives is carefully designed to have a positive impact on society and the people we serve. Sustainability is a key component of this community engagement and has inspired some of our most successful programs to date, such as Savola’s landmark Negaderha food waste management campaign and multiple one-off initiatives throughout the Kingdom.

Donations by Panda and Savola World

SAR 10 million

6,000 people

benefited from Savola’s community initiatives and contributions

Supporting the WRI

Working alongside the world’s largest food retailers, Savola has supported the implementation of the global “10x20x30” initiative, launched by the World Resources Institute (WRI) to halve food loss and waste among key retailers and suppliers by 2030 in keeping with SDG target 12.3.

Donation to Health Heroes

It partnered with Health Authorities and donated SAR 5 million to health frontline heroes.

Panda Caravan

Panda Caravan is a charitable initiative, which aims to promote the spirit of sharing and giving by Panda employees, through donations during the holy month of Ramadan. It took place during this year, marking the 20th consecutive year of Ramadan. It took place during this year, marking the 20th consecutive year of Ramadan.

In 2020, the initiative was based on the values of solidarity, giving, and cooperation during the current circumstances of COVID-19. It made a true difference for families in need across the Kingdom. The donations were administered by selected government-endorsed charity associations that distributed grocery supplies and essentials to around 2,000 households.

Zakat Al Fitr

Panda partnered with Namaa Association to facilitate paying Zakat Al Fitr. More than 7,000 customers paid their Zakat through Panda checkout counters at Panda stores. The amount of Zakat collected was paid to Namaa Association that took charge of securing supplies to needy families in the Kingdom.

Ramadan Food Baskets

Panda was selected as a trusted partner with several government and private sector organisations to purchase and provide more than 30,000 Ramadan food baskets to thousands of newly households across the Kingdom during the pandemic.

Strengthening food security through waste management

In alignment with Saudi Vision 2030, as well as the global Sustainable Development Goals (SDGs), Savola has a long history of active public involvement in reducing food waste in the Kingdom through the promotion of rational and responsible household and industry consumption practices.

Panda “Can’t Miss” Initiative

In 2019, Panda Retail Company launched the “Can’t Miss” Initiative to put an end to unnecessary waste and reduce environmental pollution. During 2020, implementation continued in a number of Panda stores, which resulted in improved stock management and waste control.

The initiative comprises the fast and efficient sale of items that are approaching their expiration dates at a discount of up to 50%. The results have been outstanding, with increased sales and levels of waste control compared to previous years.

Panda continued to empower and partner with local communities in 2020. As many families faced hardships due the COVID-19 crisis, it rolled out a couple of community initiatives to support people to get through the pandemic.
Volunteering and Charitable Programs

Savola Group has always encouraged and supported employee engagement in volunteering to assist the community, and our specially designed volunteer programs support personal and professional growth among our people. Reflecting its deep-rooted commitment to these activities, Savola has taken the extra step of incorporating them into the company's annual employee performance indicators, as well as our corporate culture, which includes every employee.

Given the social distancing requirements implemented as part of national efforts to curb the spread of COVID-19, and to ensure the health and well-being of our employees and their families, volunteering activities were suspended from March 2020 onwards. Nevertheless, we are proud of our achievements in this field and will resume our activities as soon as possible, building on our great partnerships and activities from 2019 including:

Negadera

Savola’s flagship food waste management and reduction program, Negadera, aims to encourage and instill sustainable practices in households and the HORECA (hotels, restaurants and cafes) sector, reducing waste to strengthen the Kingdom’s food security.

**Negadera app**

2020 saw the launch of the Negadera mobile application for smartphones, expanding the program's reach and offering users a suite of new tools and tips. The new application encourages waste-conscious grocery shopping, provides advice on food storage and meal planning, suggests recipes that turn leftovers into delicious new dishes, and offers a portion planner calculator so that users can reduce excess purchases.

A complementary initiative, still under development, will target 6–10-year-olds with the aim of cultivating a food-waste-aware culture among the Kingdom's young people.

**Raising awareness**

Driving sustainable behavioral change to optimize the use of food resources in the Kingdom remains the ultimate goal of the Negadera program. This role in promoting food security took on new significance with the onset of the pandemic. Negadera produced a series of awareness-raising videos for social media about consumer and food security in the context of the supply disruptions caused by COVID-19, covering the full consumption cycle and featuring tips for shopping, food sanitizing, storage, and cooking.

**Reducing food waste during G20 workshops**

In October 2020, Savola participated in a regional workshop on reducing food waste organized by the Saudi Ministry of Environment, Water and Agriculture in cooperation with Germany’s Thünen Institute. Savola World presented a paper at the workshop, which was convened as part of Saudi Arabia’s presidency of the G20 Summit, showcasing “Strategies for Food Waste Reduction at Household Level”, and sharing its experience from the Negadera program. The key recommendations of the workshop were to emphasize international cooperation to reduce food waste and lessen the impacts of COVID-19 on global food security.

Negadera program partners

The Negadera program collaborates with several local and international organizations in order to achieve its goals and deliver impact, including:

**United Nations Environment Program (UNEP)**

Savola Group has signed an 18-month partnership with the United Nations Environment Program (UNEP) to leverage their global scope of work and technical expertise. In return, we seek to contribute to provide strategic support and lead the transformation in addressing the excess food waste in the Kingdom of Saudi Arabia through the comprehensive “Prevention and Reduction of Food Waste” Program.

**Waste & Resource Administration Program (WRAP)**

Savola Group has partnered with Waste and Resource Administration Program (WRAP) to obtain a license to leverage their expertise that includes strategic guidelines, business models, and several specific tools and tips. Through this license, we can utilize the intellectual property of WRAP to enrich our own program.

**Saudi Grains Organization (SAGO)**

Savola Group and employees across our operations and footprint will continue to dedicate time and funds to support the people of the Kingdom in facing the negative fallout of the COVID-19 pandemic, as well as delivering on our commitments to the nation through various community projects and initiatives.

Specific plans for 2021 include the establishment of new volunteering partnerships, paving the way for greater engagement by our employees in delivering charitable support personally to those in need across the Kingdom once it is again safe to do so.

Meanwhile, our Negadera program will see new projects and enhancements in 2021, including a high-impact communications campaign during Ramadan, focusing on the portion planning and meal planning; the launch of new household training materials for adults and info-animations for children; and new initiatives to further engage the HORECA sector in the context of food waste prevention, ensuring generations to come can enjoy a secure and healthy supply of food.
Our People
Our People

Savola’s inclusive business culture provides an environment in which our talented and diverse workforce can thrive. We deeply appreciate our employees’ commitment to Savola’s vision and principles, and recognize that our success would not have been possible without their hard work and dedication.

A Unique Corporate Culture

We employ more than 24,000 people, representing over 40 different nationalities. They are the engine of our business success, the front line of our customer experience, and the drivers behind the realization of our vision. As they flourish, so does Savola, and we strive to maintain a positive, balanced and fair working environment in which they can do so, backed by sound governance.

We also encourage professional development, creativity and innovation through our inclusive business culture, wherein every voice is heard, equal opportunities are the norm, and everyone receives the same benefits and compensation for the same type of work. All of our companies operate according to the same values and offer development opportunities for employees through tailor-made initiatives that reflect global best practices.

Employee retention rate increased to 91%

The Savola Group Sustainability Report 2020
Supporting Our People in Need
Savola continued providing its employees with a range of unique benefits, such as a home loan scheme to our Saudi employees, Takaful insurance to provide support to employees’ families in the event of death or disability of an employee, and a Tawoon fund, which was established to help our junior staff in times of financial emergency.

Reflecting our deep commitment to these programs, which have been running since 2013, Mr. Sulaiman Abdulkadir Al Muhaidib, the Chairman of the Board of Directors, donated his annual Board remuneration, attendance allowance and expenses allowance for the fiscal year 2020 – a total of SAR 230,435 – to support the Group’s Tawoon fund.

Promoting Employee Well-being
Central to our success as a company is our workforce. This means achieving a suitable work–life balance, which is essential to both productivity and employee satisfaction. Our operating companies therefore implement a range of employee engagement activities in 2020 to build upon our 78% engagement score.

We have also launched “Align” program – a new long-term incentive program that offers an extensive range of inducements to reward top executives for achieving the Group’s strategic objectives and retain key talent in mission critical roles.

To ensure our exceptional employee value proposition throughout the crisis, we reaffirmed our position as a competitive employer of choice in the region’s food and retail industry, with a rising retention rate that reached 91% in 2020, up from 89% in 2019.

Employee benefits
Savola’s attractive employee value proposition is a key enabler of our high retention rate and offers an extensive range of benefits that ensures our people are recognized and rewarded for their hard work. These include:
- Basic salary
- Housing allowance
- Transportation allowance
- Medical insurance
- Annual salary increase cycle
- Annual performance bonus
- Bi-annual performance and career development reviews of our entire workforce
- Children’s education allowance
- Annual air tickets for Saudi employees
- 30 days paid leave
- Free-of-charge in house childcare
- Free car parking
- Discounted corporate rates

Achieving a healthy work-life balance in 2020
IFI
- Monthly gift bag with Afia products
- Ramadan gift baskets
- Eid Al-Fitr breakfast box and sweets
- Daily canteen lunch
- Transportation to Al-Balad (Cities of Jeddah)
- Improved accommodation facilities

USC
- Monthly weight loss competition
- Flu vaccination campaign
- In-house health services (hearing test, diabetes and blood pressure, dental checkup)
- Fitness center
- Al-Baik meal
- Annual Ramadan Iftar
- Eid lunch
- FIFA tournaments

AFIA
- Recreation hall
- Fitness center
- Reward scheme
- Social activities, family fun and kids’ day

Employee Engagement at Panda
Despite the COVID-19 outbreak in 2020, Panda provided numerous opportunities for employees to share authentic moments and experience Panda’s culture. Through a wealth of engagement activities, Panda sought to create value for its employees, promote its brand and culture, maintain a healthy, safe, and positive work environment, increase employee productivity, engagement, and motivation. Throughout the pandemic, key staff activities and initiatives focused on well-being, employee motivation and engagement to ensure that we continued to deliver on our commitment to serving our customers at a time they needed us the most. Among the initiatives were the following:
- Application of Panda Measures to Prevent Spread of COVID-19
- Working from Home Tips
- Back to Office Protocols
- Frontliners appreciation campaign
- Thank You Campaign for Panda Heroes during the outbreak
- Panda Caravan
- KSAMA National Day
- Breast Cancer Campaign
- Movember (Prostate Cancer Campaign)
- Panda Biggest Loser Challenge (Sport Activity during the outbreak)
- Health Day
- Mother’s Day
- Women’s International Day
- Father’s Day
- Back to School
- Eid Celebration
- Hajj Eid Observation
- International Workers’ Day
- National Days Greetings for employees of different nationalities
- Imitayaz Panda App (Employee Discount Program in app, made available for the employees to benefit from discounts obtained from hundreds of well-known brands across KSA)

SFC delivered the second round of its Igidae Executive Leadership Program in 2020, in partnership with McKinsey & Co., benefiting 30 participants at Director and Executive Director levels, and succeeded in holding various other professional development and capability building activities throughout the year. At AFI, employee performance and career development reviews take place twice each year, while USC performs an annual training needs analysis assessment linked to the Savola competency model and then builds a training plan based on individual employee needs and gaps. In 2021, we will continue to maximize the skills of our talented workforce, equipping them to meet 21st century challenges by developing tailor-made training programs and investing in modern delivery approaches.

### Ensuring Health and Safety

At Savola, we know how important it is to provide a safe and secure workplace for our dedicated employees. This starts with a culture that enshrines occupational health and safety best practices across all our activities, helping our employees to stay safe at all times. As a fundamental pillar of our organizational systems and business approach, the Health and Safety (H&S) Committees within each of our operating companies are entrusted with keeping injury, disease and absenteeism to an absolute minimum, and making sure that every work environment is hazard-free.

**Protecting our People amid the Pandemic**

Our rapid COVID-19 response measures ensured our people remained safe throughout 2020 in the face of the pandemic. Savola’s precautionary planning was built on information provided by the Ministry of Health and other concerned authorities. Overall Training on Health and Safety issues

- **AFIA**
  - Safety induction
  - Forklift safety drive
  - Fire extinguishing
  - Chemical

- **USC**
  - Safety induction
  - Forklift safety drive
  - Risk assessment
  - HSE Awareness

- **IFI**
  - HSE Induction
  - Forklift safety
  - Emergency preparedness and response plan
  - Risk assessment
  - Incident Investigation

- **HQ**
  - Fire and evacuation training

**AFIA 2024 H&S Vision**

AFIA launched its inspirational journey to achieve HSE operational excellence by 2024 through a broad and expanding health and safety program, including:

- A strong HSE standard system targeting ZERO harm and ill health;
- ISO 45001 and OHSAS 18001 certifications;
- Toolbox talks;
- 100% employee coverage;
- Safety leaders and coordinators;
- Risk assessment and accident/ incident investigations; and
- Regular training and system updates.

The immediate priority was to guide the transition to remote working whilst launching complementary awareness activities to keep our people informed and educate them on how best to protect themselves and others. At the outset of the pandemic, we formed a Crisis Committee to oversee our response and ensure full compliance across our many stores, sites and facilities, while maintaining the efficiency, flexibility and adaptability of our operations and service delivery capabilities.

Isolation rooms were established within employee residential compounds and all frontline employees were immediately issued with personal protective equipment and materials to reduce the threat of infection. To thank them for their care and dedication amidst these difficult working conditions, all of our frontline staff received a special additional allowance during the height of the crisis.

**Clinics**

Savola runs a dedicated clinic at our HQ, where employees can ask a trained health practitioner for medical advice and can find over-the-counter medicines, while the USC clinic is available 24/7 and provides medicine for common diseases, a quarterly healthcare program as well as weekly random checkups.

**IFI**

The clinic is available and provides medicine for common diseases, a quarterly healthcare program as well as weekly random checkups so that the company monitors employees’ health and takes any necessary action.

We will continue to build on our successful record in 2021 to establish a constantly improving workplace safety culture by increasing awareness, providing training and implementing world-class HSE management and risk reporting systems.
Driving Diversity and Inclusion

Savola aims to set the regional standard for sustainable performance. A vital aspect of this is the diversity and inclusivity of our working environment, which is assured by our robust HR and governance frameworks, and our goal to make each one of our stakeholders proud to be associated with Savola.

Equality has been at the heart of our culture since Savola’s establishment, and we are proud to be aligned with national and international initiatives that reflect our own ideals, such as Saudi Vision 2030 and the UN Sustainable Development Goals.

Savola Group therefore welcomes people of all races, ethnic origins, religions and creeds, regardless of gender, age or ability, and continuously strives to create equal opportunities for all.

Equality, Diversity and Inclusion at Panda

Panda continued throughout 2020 to embed equality in the workplace by:
- Increasing equal hiring opportunities, with an emphasis on women (1,248) and people with disabilities (322).
- Increasing women in senior positions in 2020 to 44 women. Nine of them were hired for senior positions during 2020.
- Investing in recruitment process to encourage applications from diverse candidates with different educational and cultural backgrounds to enrich our workforce, which represents 46 nationalities.
- Promoting culture of diversity by undertaking activities that encourage greater understanding of differences (e.g. celebrating different national holidays):
  - National days for employees from 46 nationalities
  - Breast Cancer Campaign
  - Prostate Cancer Campaign (Movember)
  - Panda Biggest Loser Challenge (Sport Activity during the pandemic)
  - Health Day
  - Mother’s Day
  - International Women’s Day
  - Father’s Day
  - Back to School
  - Eid Celebration
  - Hajj Eid Observation
  - International Workers’ Day
  - Panda Retail Company continues to partner with the Ministry of Human Resources and Social Development to nationalize positions and empower nationals to assume roles that enhance their abilities and equip them with competencies and knowledge. In 2020, Panda maintained the level of nationalization in its Green Zone by increasing the proportion of nationals in the workforce.

Saudization

We are a national champion when it comes to hiring and training Saudi nationals. Reflecting on our commitment to realizing the Saudization objectives of Vision 2030, we maintained our Platinum Zone Nitaqat rating at our HQ and SFC in 2020, while Panda continues to make significant strides forward, achieving the Green Zone rating in 2020.

We employed a total of 6,893 Saudi citizens across HQ, SFC and Panda at end-2020, accounting for 37% of our workforce and representing a significant increase of 21% over 2019.

Female Inclusion

Savola continues to pursue greater gender equality, as per Goal 5 of the Sustainable Development Goals. By supporting and empowering women – and Saudi women in particular – we hope to make a meaningful contribution to our society in accordance with national priorities and the objectives of Saudi Vision 2030. For this reason, Savola Group is widely recognized in the Kingdom as a pioneer in female inclusion and empowerment.

Looking Forward

In 2021, Savola will remain focused on safeguarding the health and well-being of our people and building our reputation as an employer of choice in the food and retail industry across the Kingdom of Saudi Arabia and throughout the MENA region. We will continue to focus on the pillars that have been designed to provide our people with a uniquely rewarding culture and working experience, by enhancing engagement, furthering work-life balance, and delivering high-impact initiatives as part of our Culture Improvement Program to accentuate the shared values, attitudes, standards and beliefs that our people embody and live by.
Environment
When it comes to the environment, we take our responsibilities seriously. We know that our activities affect the world around us. That is why Savola strives to embed a culture of environmental sustainability and stewardship across our operations to reduce the impacts of our business and safeguard the health and biodiversity of the Earth for future generations.

Energy awareness is central to this approach. We therefore measure, report and benchmark our energy efficiency performance against international principles and standards. By applying this data to identify areas where we can drive down our energy consumption and related emissions, we not only make our business more economically sustainable, but also contribute to international efforts to limit global climate change.

By reducing our consumption, whilst also adopting cleaner and more efficient energy sources and technologies, we are also fulfilling our commitments to our stakeholders by contributing to Savola’s long-term success.

Panda updates:
• Installed LED lights in stores that will save around SAR 15,000 annually per store. Implementation is complete in 20% of stores
• Partnered with Energy Solution Est. to install Smart Thermostats for air conditioning control and energy saving. The initiative is estimated to save around SAR 80,000 annually per store (8% of electricity bill). Implementation is complete in 20% of stores
• Initiated Stores Lighting Scheduling Optimization that saves around SAR 30,000 annually per store (3% of electricity bill). Implementation is complete in 85% of stores

Planned initiatives for 2021 additional to 2020’s progress are as follows:
• Install Solar Panels to generate power, with expected savings of 7% on the electricity bill; and the installation of Smart Sensors for the refrigeration system to control and save energy.

Energy savings in 20% of stores due to the installation of LED lights and Smart Thermostats for air conditioning control

USC reduced water consumption by 13 liters per ton of sugar produced

USC completed the installation and commissioning of a new 5,000 m² evaporator

USC Fuel in Kg per ton of refined sugar output (TRSCO) 2020 2019 2018
68 64.3 72.6 Installation of 5,000 m² new evaporator and adjustment of operation mode

Electricity (kWh/ TRSCO) 74 73.6 76.5
Steam (T/ TRSCO) 0.89 0.89 0.99

AFIA Fuel (l) 1,012,586 **Replacement of diesel forklifts with electric forklifts**

Panda Electricity (kWh) - - **Replacement of in-store fluorescent lighting with LED – completed installation in 20% of stores.** Energy Saving through installation of Smart Thermostats for air-conditioning control and energy saving – completed installation in 20% of stores.

In 2021, planned initiatives for Panda include the installation of Solar Panels to generate power, with expected savings of 7% on the electricity bill; and the installation of Smart Sensors for the refrigeration system to control and save energy.

* Inclusive of the entire Savola tower, which consists of 15 floors, as well as Panda HQ
** Increase arises from the increase in the Production plan, but overall there is a reduction in the consumption

USC** reduced water consumption by 13 liters per ton of sugar produced

USC completed the installation and commissioning of a new 5,000 m² evaporator

USC reduced water consumption by **13 liters per ton of sugar produced**
Reducing Consumption

In 2020, USC completed the installation and commissioning of a new 5,000 m³ evaporator and started operating the evaporation station in triple effect mode rather than double effect mode. This initiative aims to reduce fuel consumption from 3,500 MJ/TRSO to 2,800 MJ/TRSO. So far, we have achieved energy consumption of 2,961 MJ/TRSO while our goal is to reduce our energy consumption to 2,523 MJ/TRSO.

In 2020, AFIA undertook the below initiatives to reduce consumption:

• Replaced R22 Gas with 410 A Gas. Due to the nature of R410a properties, which is a HFC (hydrofluorocarbons) refrigerant, it does not have any ozone depletion potential (Zero ODP) and thus introduced as a greener choice for R22
• Replaced halogen globes with LED globes in all streetlights
• Installed timers in AFIA offices to switch off the air conditioning at night
• Replaced air conditioners as a greener choice for R22
• Replaced R22 Gas with 410 A Gas. Due to the nature of R410a properties, which is a HFC (hydrofluorocarbons) refrigerant, it does not have any ozone depletion potential (Zero ODP) and thus introduced as a greener choice for R22
• Replaced halogen globes with LED globes in all streetlights
• Installed timers in AFIA offices to switch off the air conditioning at night

In 2021, AFIA aims to replace all the lights and

• Reduce maintenance cost of lights and air conditioners

In 2021, AFIA aims to replace all the lighting in the component factory.

In 2021, AFIA aims to replace all the lights and

In 2021, AFIA aims to replace all the lighting in the component factory.

Water Consumption

As a business that largely operates in water-scarce regions, Savola is keenly aware of the importance of responsible water use. We are therefore highly committed to embedding sustainable water consumption and waste management practices in our operations, in keeping with our own environmental targets as well as the goals of Saudi Vision 2030.

Water is integral to food production processes and is a significant strategic importance to the operation of our business. Consequently, we carefully monitor our consumption with a view to implementing more sustainable practices and patterns of use throughout our production processes and retail operations.

In 2019, Afia installed mass flowmeters in each water supply line to monitor our consumption and corresponding consumption reports are monitored regularly to control high water consumption, so that adjustments and improvements can be made. In 2020, AFIA installed float switches and control valves for more efficient management of water.

In 2020, water consumption by USC improved slightly from 444 liters of water per ton of sugar produced to 431 liters, owing to a combination of waste prevention actions. These included domestic (non-industrial) water consumption controls such as the deployment of motion-sensor activated water taps across the plant – saving around 1,900 m³, and recovery of multi-effect evaporation station in triple effect mode rather than double effect mode. This initiative aims to reduce fuel consumption from 3,500 MJ/TRSO to 2,800 MJ/TRSO. So far, we have achieved energy consumption of 2,961 MJ/TRSO while our goal is to reduce our energy consumption to 2,523 MJ/TRSO.

Waste Management

Savola is committed to achieving sustainable, environmentally conscious patterns of resource usage that minimize waste and its negative effects on our natural surroundings. In alignment with the objectives of Saudi Vision 2030, we seek to design and implement effective resource management initiatives in all areas of our business to reduce waste and maximize resource efficiency.

These resource reduction, reuse and recycling measures include ongoing efforts by USC to use ‘carbocake’ (waste calcium carbonate) to initiate a reaction that captures harmful sulfur dioxide emissions to form gypsum, which can then be collected and sold to construction factories and cement producers.

Beyond our internal programs, our Negaderha food waste management and reduction program continued to encourage more sustainable practices across the Kingdom, targeting both households and the HORECA (hotel, restaurant and cafe) sector.

Waste Management in 2021

Savola will build upon our successes around resource rationalization and saving in 2021 to further increase efficiencies and drive down waste, whilst also encouraging more sustainable practices through our Negaderha program as we raise awareness among households and the HORECA sector of the urgent need to curtail food waste in Saudi Arabia.

Sector
Savola Group is on a journey of continuous improvement, as we leverage our strength and influence in the food and retail sectors, as well as the talent and capabilities throughout our organization, to bring about positive change for our consumers and society.

As a proactive and socially responsible corporate citizen, Savola Group seeks to use our unrivalled position in our operating sectors to benefit society by delivering on our sustainability commitments across all business initiatives and practices. The impact of these activities illustrate the extent of our employees’ dedication, not only in maintaining exceptional service standards, but also by acting every day for the good of society and the nation, bringing about positive change in the community for the benefit of current and future generations.

Furthermore, we maintain an extensive network of associations and relationship with industry bodies, charitable and special interest entities, and standards organizations. Savola Group is a founding member of the Qaderoon Business Disability Network and the first Saudi company to become a member of the International Labor Organization (ILO) Global Business and Disability Network. We hold a gold category Mowaamah certificate that recognizes Savola as a suitable working environment for people with disabilities.

Certifications, Memberships and Associations

Our operating companies fully adhere to the guidelines set by the Saudi Arabia Standards Organization and holds a variety of other national and international certifications in a broad range of areas, from workplace safety and hazard analysis to environmental management and lab testing.

Customer Satisfaction

Our internal systems and processes ensure that our products and services meet the very highest international quality standards and, above all, deliver on the expectations of our customers in terms of quality and cost. Customer-centricity is a key driver of our success as a company, and we place great emphasis on ensuring complete satisfaction for all our customers – be it in terms of their shopping experience, the standard of the service they receive or the quality of the products they purchase.

This approach is embedded in our strategy and within the ethos of our brands. As one of the leading players in grocery retail in the Kingdom, Panda continued to deliver against consumer expectations.

New Store Checkout Planogram and Fixtures

Consistent with Panda’s program to enhance our store environment and product display, creating a value for our customers and positively impacting their shopping experience, Panda recently revamped the display of the front-end and checkout areas by implementing a new planogram and fixtures that have collections of small and easy-to-grab products for customers on their way out.

The new planogram and the fixtures were successfully implemented in some of the stores across the Kingdom during the fourth quarter of 2020.

Bakers Development Training

As part of Panda’s ongoing commitment to developing the skills of its personnel and ensuring the bakers are constantly well prepared and trained to support the Panda Fresh Program, the Operations and Human Resources Divisions initiated, in December, an ambitious training program to upskill around 800 bakery employees, at both theory and practical levels.

The training program targets Bakers, Assistant Bakers and Bakery Supervisors in all regions across the Kingdom. At its pilot phase, the program was successfully implemented in two stores in the Western Region. It will be rolled out gradually in other regions up to its completion by March 2021. The theoretical part of the training aims to educate the bakers about a collection of standard operating procedures that illustrate the baking steps and the delivery of quality service by following visual instructions, precision and accuracy, efficiency, and problem-solving. On a practical level, the bakers are shown the various baking methods and practice them to prepare a wide variety of freshly baked products for customers throughout the day.

The two-week program, held in full alignment with the regional and store leadership teams, is implemented in two shifts on the field by Panda trainers and supervised by a professional pastry chef to allow trainees to showcase the standards, implement production planning, and get live reactions from customers. In addition to the bakery-specific skills, the training helps employees to develop Good Manufacturing Practices (GMP) and demonstrate appropriate work behavior as well as attitude.

DSD to DC Conversion Project

Panda’s LIFT Program began three years ago and since then Panda stores have seen a great deal of improvement in shelf availability. One of the key pillars in the LIFT Program is the DSD to DC Conversion Project. The project includes enabling suppliers to convert supplies meant to be delivered to the stores to be redirected to the distribution centers in a way that correlates the needs of suppliers in the stores and ensures a sufficient stock of SKUs. Moreover, the project is also essential to the improvement of on-shelf-availability and effective planogram implementation, and as a result enhancing the customers’ shopping experience in Panda stores. In addition, the centralized deliveries help optimize the supply chain cost for Panda’s suppliers and improve, in parallel, Panda’s supply chain efficiencies.

The project was re-launched in January 2019 and covered grocery food and grocery non-food suppliers. To date, the majority of the suppliers in scope have either accepted or switched from DSD to DC delivery mode.

Launch of PandaClick App

In order to support our customers in the current circumstances, help them stay safe at home in compliance with the authorities’ instructions, Panda launched its e-commerce PandaClick Application. The application was launched to enable customers to access and shop online from Panda stores while staying safe at home. Through this application, it is now easy for customers to check weekly prices and promotions, place their orders, and receive their purchases directly on their doorsteps.

Launch of Jamjom Fulfillment Center

Panda strives to make PandaClick the premier online grocery shopping service provider in the Kingdom by ensuring that products are delivered reliably and on time to our loyal and new customers, further enhancing the services provided to customers.

Panda launched Jamjom Fulfillment Center “FC 755” in August as a standalone 3,000m² operations center. The new center is fitted with all equipment and utilities as well as trained employees to run the center effectively and to meet customers’ orders in a satisfactory manner.

Panda provided high quality and affordable hand sanitizers in the form of gels and sprays to meet various customer preferences.

New Store Opening

During the COVID-19 pandemic, the teams in Operations Excellence, Capital Projects, Procurement, Maintenance, Installation, IT, and Regional Support worked on the completion of Jalmudah Supermarket in Jubail, East Region. During the curfew, significant progress was made, to eventually culminate in the opening of the new store on 15 June with all its FMCG Departments.

Panda Achievements

Panda was ranked as one of the Most Supportive Brands during the COVID-19 outbreak in Saudi Arabia, based on a survey conducted by IPSOS, a global leader in market research. The survey measured consumers’ perceptions towards leading national brands in Saudi Arabia in terms of their influence on communities during COVID-19 and their impact on people’s lives.

Store Inventory Management System (SIM)

Store Inventory Management System (SIM) is one of Panda’s key digital transformation projects. The system is a comprehensive software with inventory management features that will help Panda control and track stock and items flow, making store operations more efficient.

Advancements

10 weeks to deliver full roll out of SIM 16 in 201 stores

8,417 employees trained with SIM 16

2,063 CCO team members participated in awareness sessions

6,354 store team members received training from key users

15 December for completion of the project; two weeks ahead of schedule

Panda product availability increase of 4% (from 91% in 2019 to 95% in 2020)

Qutof Panda Project (Four Seasons Project)

The Four Seasons Project, also known as Qutof Panda, is one of the strategic turnarounds in the bakery element. It is part of a larger strategic program aiming to build Panda’s store of the future. It will consist of well-designed departments that customers tend to visit regularly for their fresh food essentials available in top-of-the-line assortments that enable the community not only to get the best products but also to follow a healthier lifestyle.

The project, to be rolled out in a number of stores in the Kingdom, has proved to be a resounding success at Sari Hypermarket in Jeddah. The latest remodeling concepts focus on visually appealing displays and merchandising products utilizing state-of-the-art light solutions and display techniques.

The Qutof Panda project aims to improve the presentation of fresh foods, through a range of solutions and outstanding concepts to drive distinct, inspire customers and enhance their shopping experience in Panda stores. It provides customers with a selection of fresh local and imported foods, offering them fantastic categories of their choice and preference. Furthermore, the new fresh remodeled departments are expected to drive basket size and allow Panda to gain a further competitive advantage.

New Private Label Product

During May 2020, Panda launched its latest anti-infection Private Label. The goal is to engage in the management of COVID-19 infection control, fulfilling the increasing needs for sanitation products in the market.
The Makeen program epitomizes our dedication to the people of the Kingdom and reflects our commitment, as a company and as individuals, to building a more inclusive society and establishing an ethos of equal opportunities in the workplace.

We founded Makeen to empower people with disabilities by creating appropriate training and career opportunities. The Makeen program provides an extensive range of activities, policies and practices that serve to erode societal awareness of the barriers faced by people with disabilities, with a view to eliminating discrimination against persons with disabilities in the Kingdom.

Makeen Program Goals

- Creating an appropriate cultural and physical working environment through the dissemination of knowledge and best practices
- Making available comprehensive support and services for people with disabilities
- Sharing experiences with any organization interested in implementing universal design (total accessibility)
- Providing support through the corporate Mentor & Buddy system
- Help people with disabilities achieve their career goals and aspirations
- Facilitating the participation of people with disabilities in the work environment.

Makeen

At a Glance

- Since its inception in 2010, a total of 1,221 employees with disabilities across the Kingdom have been recruited through Makeen, and many have passed through the Mentor & Buddy Program that aims to familiarize people with disabilities in the work environment. The program provides guidance to employees to deal with colleagues with disabilities at the workplace that aligns with Savola’s spirit to create an inclusive and welcoming environment for persons with disabilities.
- Furthermore, since 2017, the Makeen online portal – a specialized, free-of-charge resource – has facilitated multiple offers of employment by bringing together private sector employers and job seekers with disabilities.
- In 2020, accreditation was obtained from the Technical and Vocational Training Corporation for the training aspects and the content of the Mentor & Buddy Program.
- Makeen has provided extensive training on interacting and working with people with disabilities, both for our own workforce and for external organizations, government departments, NGOs and private companies.

Public Awareness and Communications

In responding to the very particular challenges facing persons with disabilities during the COVID-19 pandemic, Makeen quickly mobilized to produce a series of 12 infographic videos providing essential safety tips and measures for people with physical, mobility, hearing, visual or intellectual disabilities.

Other communications materials issued in 2020 include a series of 14 infographic films produced in Arabic and English – and featuring sign language and subtitle text – to enhance disability awareness among the community. The films addressed a variety of issues, introduced Makeen’s goals and services, and discussed the feasibility of employing persons with disabilities, the Mentor & Buddy program, the Universal Accessibility program, and how to effectively communicate with people with mobility, hearing, visual and intellectual disabilities such as autism.

Events and International Participation

Owing to social distancing requirements, Mentor & Buddy training activities were suspended, as was our usual program of Makeen training and external engagement activities. However, Savola continued to participate in virtual conferences and events examining potential responses to the pandemic specific to people with disabilities.

This included Business Leadership in Comprehensive Disability Responses during the Coronavirus Pandemic; a virtual Seminar of the Global Business and Disability Network of the International Labor Organization (GIDN-ILO); a virtual seminar on Attendance, Mental Health and Work Performance during the Pandemic; and a virtual workshop, Work of Persons with Disabilities during the Coronavirus Pandemic.

Makeen also participated in several virtual seminars related to disability, including: etiquette and knowledge and practices on various issues; the concept of universal access; web accessibility according to (W3C) standards; the Prince Mishaal bin Majid bin Abdulaziz Center for Social and Humanitarian Research, Private Sector Contribution in Employment of Persons with Disabilities: Reality; Obstacles; Requirements for Success and a further event organized by the General Presidency for the Affairs of the Grand Mosque and the Prophet’s Mosque, The Universal Accessibility Program in the Two Holy Mosques. Other engagements through the Makeen program included virtual participation at the Vision Forum with Elsar Foundation for rehabilitation and visual impairment services to celebrate International Sight Day and White Cane Day, and to raise awareness among the community and authorities of the rights of people with disabilities.

Launching Mowaamah via the Savola Intranet

Also, during 2020, we launched the Mowaamah platform across our intranet, providing valuable resources for all employees interested in building their knowledge and practices on various issues related to disability, including: etiquette and guidelines; policies and procedures; the concept of universal access; web accessibility according to (W3C) standards; and services and support programs.
Supply Chain and Procurement

We aim to ensure that our products are as sustainable as possible by adopting responsible manufacturing and supply chain management mechanisms. Furthermore, we carefully select our suppliers and partners to strengthen sustainability best practices throughout the product manufacturing and distribution cycle.

Therefore, each of our operating companies seeks to have a positive impact not only on customers but also on the entire supply network, helping to build a robust system that is transparent, reliable and aligned with our values.

The companies are also able to apply rigorous yet adaptable supplier qualification criteria to ensure the best, most responsible partners are selected for contracts.

During the COVID-19 pandemic, Panda’s Corporate Procurement faced an increasingly high demand for products and materials needed for the control of infection, not only on the organization’s premises but also to ensure business continuity, further drive supplier collaboration, and to meet the daily needs for various supplies while reducing the risks involved.

The Company’s centralized Corporate Procurement closely engaged with every part of its supply chain to manage and prevent disruption of supplies, production and distribution. The business continuity measures that were put in place to help ensure supply enabled the Company to actively work to identify risks and find alternatives to any part of the supply chain.

This includes:
• 53 key suppliers jointly and effectively cooperating during the crisis;
• 30% decrease in the delivery time for fast-track orders; and
• 50% reduction of procurement processes and approval cycle to meet increasing e-commerce demand.

The Direct Store Delivery (DSD) Centralized Ordering is a key project within the UFT Program. The project aims to maintain better shelf availability by ordering items that are directly delivered from suppliers to stores, with the right quantity at the right time by the Supply Chain’s Planning team in the Head Office.

In August 2020, the DSD project was completed, with 2,400+ SKUs centralized within the Grocery Food and Grocery Non-Food business units.

Formal processes followed by our operating companies included:
- Pre-qualification and initial screening processes, according to set evaluation list requirements.
- Evaluation and formal screening based on requirements and specifications, which include specifications, experience, previous qualifications, financial dealings and supplier reputation.
- Inspection visits and product sample testing, if necessary.

Health, Nutrition and Packaging

The health and well-being of our customers is a key priority for the Group and an important aspect of our sustainability approach. We therefore strive to provide sufficient nutritional information and transparency regarding our products in order to allow our customers to make healthy choices.

Our labeling is transparent, providing guideline daily amounts for all food products to ensure our customers remain fully informed, and conforms with Saudi Food & Drug Authority guidelines and standard specifications.

We also continue to pursue a more environmentally conscious path that reflects the broader goals of the Kingdom with regard to damaging non-biodegradable plastic waste entering the ecosystem. As the Kingdom adopts new certification standards, we continue to switch to more biodegradable consumer product materials in alignment with the latest requirements of the Saudi Standards, Metrology and Quality Organization (SASO).

We also aim to provide high quality and nutritious goods, with an increasing emphasis on healthy options across our various retail lines. For example, since 2019 we have focused our innovation and research on sourcing and developing new product formulations such as fine sugar, a wider range of spray oils, and new specialty fat products.

In 2020, IFI, the specialty oils and fats facility in Jeddah, reached 39,000 metric tons of production.
Empowering Local Suppliers

As part of its responsibility and commitment to the Kingdom, Panda encourages and supports national manufacturing and production. It prioritizes procurement from local suppliers and consciously works closely with them, provided that they meet all quality standards and requirements, and comply with the Company’s ethical values and standards.

The COVID-19 pandemic placed additional pressure on Panda’s supply chains and, in particular, on its egg supply to the various regions across the Kingdom. As a result, Panda stores, like other retailers, faced a shortage of egg supplies while customer demand for eggs increased significantly. To address the egg supply chain shortage, various functions in Panda responded in a collaborated and coordinated manner to diversify its supplier base, identify, and include more local producers based in different regions of the Kingdom.

Panda participated in an agreement with the Eggs Producers Cooperative Association, facilitated by Mo’an Association, a grocery industry NGO, to help keep sufficient egg supply levels in Panda stores throughout the COVID-19 crisis. This new agreement contributed to mitigating the demands for eggs and providing sufficient stock of eggs in stores, while also improving productivity and access to local and regional suppliers. This initiative enabled small businesses to establish new and direct partnership relationships with Panda.

In 2020, one of USC’s main achievements was the identification of local suppliers for PKG materials, encouraging local production.

Our Sector in 2021

In 2021, we will continue to prioritize our collaborative activities to ensure the health, wellbeing and food security of the people of Saudi Arabia.

However, we will not lose sight of our broader sustainability goals, and will work closely with associations, societies, national and international bodies to improve our strategy, share our insights and contribute to sustainable development for the good of the sector, the economy and the nation. This will include building new partnerships through our Makeen program with companies that share our passion for supporting social causes, particularly in the field of disability.

We will also continue to improve our performance, both as individuals and collectively as Savola Group, according to the best practices and the latest international standards, working with national and international bodies to achieve the UN Sustainable Development Goals (SDGs) and Saudi Arabia’s Vision.
About this Report

This is Savola Group’s seventh Sustainability Report, covering the period of 1 January to 31 December 2020. The previous Sustainability Report covered the period from 1 January to 31 December 2019. The Company is committed to sustainability and CSR activities through an annual Sustainability Report to inform and engage all the stakeholders.

Scope and Boundaries
This Report covers the sustainability approach, priorities, activities, performance and achievements of our operating companies within the Kingdom of Saudi Arabia, including Panda, Retail Company, Alia International Company, United Sugar Company, International Food Industries (IFI) and the Group’s Headquarters (HQ). It does not include the activities or performance of our suppliers, contractors or partners, unless stated.

Report Structure
The content of the Sustainability Report is based on the strategic priorities identified and Savola Group’s Responsible Business Framework, which consists of the following pillars:

- Business
- Employees
- Community
- Environment
- Sector

Savola Group as a whole and our manufacturing facilities in particular, adopts a precautionary approach to all decisions. We are proactive in our risk management strategies concerning climate change and the environmental impact of our activities, performing regular reviews of risk in our operations, and supply chain.

International Standards
This report has been prepared in accordance with the GRI Standards: Core option
The Sustainability Report is also aligned with the newly published Saudi National Standards for Sustainability Reporting.

External Assurance
We do not commission independent assurance of our Sustainability Report.

Support
The 2020 Sustainability Report was developed with the guidance and support of Instinctif Partners MENA.

Previous Sustainability Reports
You can view our previous Sustainability Reports and the Group Annual Report at www.savola.com.
